

→ **VENUS TREFOIL CABLE CLAMP**

Material : Glass Filled Nylon

VENUS trefoil cable cleats are used to clamp high voltage single core cables in a trefoil formation, thus giving your cables a magnetic symmetry, and allowing free and easy flow of electrical currents through your cables. They eliminate electromagnetic interference and electromagnetic induction. Thus preventing degradation and loss of electrical currents of your cables, and also protect them from lightning discharges.

ADVANTAGES OF TREFOIL CLAMP

- ✓ High mechanical strength
- ✓ Resistant to most chemical, acids and alkalies.
- ✓ Long service life
- ✓ High flexibility
- ✓ Superior design

Venus Part No.	Min	Max	Centre to Centre distance Mounting min
VCT 01	20	25	110
VCT 02	30	35	110
VCT 03	39	44	110
VCT 04	49	52	110
VCT 05	59	62	110
VCT 06	63	67	110
VCT 07	91	118	110

→ **VENUS EMBOSSABLE TAGS (with customized Engraving)**

Venus Part No.	Length (mm)	Width (mm)	Thickness (mm)	Standard packing
SST 0875	75	8	0.50	100
SST 0890	90	8	0.50	100
SST 08130	130	8	0.50	100
SST 1950	75	19	0.50	100
SST1990	90	19	0.50	100

Venus stainless steel emboss able tag offers permanent identification of cables & hose assemblies in extreme condition such as petrochemical, shipping, Construction. Power etc.
